### NOTES:

- 1.-Sound data is in sones @ 5' distance, measured in a semi-spherical field, with ducted installation at the intake and discharge of the fan.
- 2.-Airflow rate and static pressure data does not include filters.
- 3.-All motors are dual frequency (50/60 Hz).
- 4.-Weight data is approximate.
- 5.-Due to its continuous product improvement process, the manufacturer reserves the right to modify the information hereby shown, without prior notice.
